AT&T's 2G GSM Sunset

Making it work and making a profit are the two greatest challenges **IPTV** service providers face. From building your network to billing for service, CHR is with you every step of the way.

■ **IMPROVE INTEGRATION**

Whether you're integrating legacy and new-gen systems or middleware and BSS, the variables of IPTV implementations are vast. With more than 60 years serving communications service providers in every capacity of their business, CHR has the expertise and resources to simplify your IPTV experience. Our holistic approach and experienced team work with you to weave together the many elements necessary to make IPTV work.

■ **PROMOTE PROFITABILITY**

As competition escalates and regulatory support declines, the battle for profit becomes even more crucial. Discover new ways to increase profits margins and drive new revenue by leveraging CHR's cross-facility philosophy and comprehensive service offerings. CHR's Integrated Services and In-Room Wiring team will help you spend time in market—more quickly making return on your investment and improving customer retention with professionally provisioned home networks. Create an unparalleled customer experience with Mediatek™—reducing churn and raising ASPU.

Sigma Systems and TiVo

Orchestrating New and Enhanced Entertainment Experiences

As consumer demands for a more personalized video entertainment experience continue to skyrocket, service providers are seeking new ways to remain competitive and seamlessly deliver over-the-top (OTT) content to subscribers. Today, Sigma Systems and TiVo have developed an integration partnership to help service providers achieve this goal by embracing and provisioning the TiVo video platform as a part of their bundled service offerings.

One Managed View of Video Access Entitlements

Critical to the success of offering a service like TiVo to customers is the ability to seamlessly enable them to access and view subscribed content from the TiVo device. Sigma Systems provides the service orchestration for the necessary authorizations, entitlements and provisioning of the TiVo service for subscribers through a single OSS solution – an essential element to delivering both on-network and 3rd party content and entertainment services. Subscribers receive the content they want, while service providers maintain customer satisfaction.

Provision and Manage Premium Video Service Products & Packages

Delivering new entertainment experiences to subscribers doesn't have to involve an immediate and costly video network evolution. Sigma Systems empowers service providers to leverage existing video networks in order to move beyond linear for services such as digital TV, PPV, VOD and DVR/PVR through support for next-generation IP video platforms, like TiVo, on a single integrated OSS service management platform. This co-existent service fulfillment environment manages the provisioning and activation of all video services, helping service providers to launch new premium video services and bundled packages that drive new revenue and reduce customer churn. In addition to viewing premium video and entertainment services offered by TiVo, service providers can also integrate with and deliver existing video products on the TiVo set-top box.

Effectively Manage the Entire Video Delivery Chain

Sigma Systems is the only OSS vendor today that has created a TiVo solution adaptor. With this unique solution adaptor, we have extended our video service fulfillment expertise beyond linear TV by enabling the support, integration, and provisioning of the TiVo service. Our single, integrated OSS solution seamlessly provides order management, provisioning and entitlement management across all technologies and systems. This single integrated solution manages one image of the TiVo service delivery value chain for the subscriber, network, device and content from the cloud.

Building the Future with Broadband

Creating Communities

Communications service providers play a vital role in building rural America. Connecting unserved or under served communities through broadband technology improves their way of life and closes the digital divide by providing economic opportunities otherwise not possible.

CHR Solutions is a proven industry leader with over 75 years of experience and will help you invest in broadband. Our complete solution gives you the tools necessary to make strategic business decisions for building, marketing, and monetizing your network.
