

COLLECT. MONITOR. ANALYZE. VISUALIZE.

## Compliant, Scalable and 5G-Ready Lawful Interception

SS8 Networks provides the fastest and simplest way to collect, monitor, analyze, and visualize lawful intelligence data. For more than 20 years, we have been innovating and evolving our solutions to optimise how communications service providers (CSPs) meet regulatory requirements and local law enforcement needs.

We provide a powerful platform for monitoring and data extraction across voice, messaging, internet, fixed, mobile and over-the-top (OTT) communications services in real-time. Our solutions simplify data capture and ensure CSPs can scale to meet the demands of cloud-based communications, Internet of Things (IoT), and a growing number of networking technologies.

### EXTRACT, COLLECT AND DISTRIBUTE DATA IN REAL-TIME

- Supports 5G, 4G, VoLTE, MCPTT, IoT, Broadband IP and other legacy services.
- Provides complete summarization records for Packet Data Scales to serve growing data volumes.
- Location Services solution designed for Lawful Intelligence.
- Supports several network architectures, communications services and complex call flows.
- Supports in-network, virtual or cloud deployment options.

ACTIVE IN  
**35**  
COUNTRIES

COVERING MORE THAN  
**1 BN**  
SUBSCRIBERS

**8 OF 14**  
WORLD'S LARGEST

We work with 8 of the world's 14 largest communication service providers.

**150** VENDOR INTERFACES

Proven network equipment interoperability with over 150 vendor interfaces to expedite deployment.

## Xcipio

SS8's Xcipio platform ensures CSPs not only meet regulatory compliance, but are able to provide the most accurate data to intelligence agencies in real time.

A COMPREHENSIVE APPROACH TO LAWFUL INTERCEPTION

Xcipro comes with an intuitive management system that provide intuitive GUI and superior reporting, process monitoring and warrant management.

FEATURES:

MANAGE NEW COMPLEXITY WITH A SINGLE PLATFORM

Our solutions support new technologies, network equipment interfaces and delivery standards, all on a single mediation platform. Additionally, our platforms are scalable to serve thousands of network interfaces simultaneously.

ACHIEVE AND MAINTAIN REGULATORY COMPLIANCE

We help CSPs achieve and maintain regulatory compliance and adhere to industry standards, including ETSI, 3GPP, CALEA, PacketCable, ATIS, NHIS, and other regional requirements.

CHOOSE ACTIVE, PASSIVE AND HYBRID INTERCEPT CAPABILITIES

We enable CSPs to choose active, passive and hybrid options to meet their unique intercept requirements. An active configuration leverages existing network elements (switches, routers, gateways) via integration with Point of Interception (POI). A passive configuration utilizes strategically placed passive probes (SS8 Sensors) to capture a target’s traffic. A hybrid solution combines both active and passive models.

SECURE MISSION-CRITICAL DATA

Our solutions provide a comprehensive set of role-based permissions to ensure control over user access and provide accountability. At the same time, they offer encryption of information and removal of sensitive data from generally accessible reports like system alarms, warnings and error messages.

WHY CHOOSE SS8 NETWORKS?

- A. It is our mission to provide the most advance Lawful Intelligence solutions today, to assure a safer tomorrow.
- B. Our solutions are designed to exceed our customers’ needs and help them successfully navigate the changing world of communication data.
- C. We expedite investigative results by combining and analyzing multiple data sources simultaneously, providing new levels of visibility.
- D. We are trusted by the world’s leading Law Enforcement Agencies (LEAs) and CSPs because our powerful compliant solutions deliver results.
